

Aware Audit Viewer

The Aware Viewer is an easy-to-use auditing tool for answering questions, completing checklists, generating findings and recommendations, and collecting backup documentation.

Key Aware features include:

- Desktop publishing quality reports for high impact management presentations;
- Advanced word processing capabilities and automatic spellchecking;
- Customizable user interface and report captions to match the vocabulary and culture of your organization;
- Default answers, recommendations and comments speed up audits and capture your investment in corporate specific processes;
- Single, compact file format that simplifies file distribution, collection and management;
- Automatic file encryption to keep confidential and proprietary information secure;
- Advanced scoring, rating, grading and benchmarking tools.

Requirements and Compatibility

Aware software requires a Pentium class workstation. Aware software is compatible with all versions of Microsoft Windows from Windows 98 through Windows Server 2003.

A minimum 450mhz, 128M RAM or greater workstation is recommended.

- The Create utility is compatible with any word processor that can save documents in a "text only" format.
- The Export utility exports Aware content in a format compatible with Excel, Access, FoxPro, SQL Server, MySQL, SQL Server and Oracle.

Aware Utilities: Create and Export

Aware Create and Export utilities allow you to:

- Use your existing word processor to author electronic audits for Aware;
- Convert existing policies and procedures to Aware compatible formats;
- Develop sophisticated rating and classification systems necessary to consolidate audit data and highlight trends;
- Export your data to industry standard file formats for analysis using your choice of database and reporting tools.

Create is based on the powerful, but easy-to-use ADL language that supports:

- Object orientated audits with templates and inherited properties;
- Pre-processor capabilities such as #define and #include;
- Publishing directives to conditionally insert, delete and change content for different audiences/locales;

Pricing

Aware is distributed through a network of certified resellers with expertise in specific vertical markets.

Software (quantity 1 pricing)

Aware Viewer	\$1,500.00
Create Utility	\$2,500.00
